Topic: I-SEAMORE hosts webinar on "AI Operations in Border Management"

Type of action: Press Release

I-SEAMORE HOSTS WEBINAR ON "AI OPERATIONS IN BORDER MANAGEMENT"

Explore the future of Border Security

Brussels, 7 April 2025 — The I-SEAMORE project is pleased to announce its upcoming webinar, **"AI Operations in Border Management"**, taking place on **April 16th at 11:00 CET**. This online event will bring together key experts from the European Commission, law enforcement, customs agencies, and technology providers to explore the growing role of Artificial Intelligence in securing European borders.

1 WEBINAR AGENDA

The webinar agenda features a dynamic mix of presentations and open discussions designed to inform, inspire, and foster collaboration:

- **Welcome & Introduction** – *Laura Cyrne, F6S (I-SEAMORE Project Partner in charge of communication & dissemination).*

- **Keynote Speech** – *Giulio Mancini, DG HOME (European Commission Representative).*

- **Synergy Project Presentations:**

  - **BAG-Intel** – *Georgios Bardas, from Netcompany-Intrasoft.*

  - **I-SEAMORE** – *Ricard Munné, from Eviden (I-SEAMORE Project Coordinator); José Ramón Cascales, from AEAT; Alexander Mackenzie, from UK Border Force; Marina Andeva, from ISIG; Valentin Micu, from Romanian Border Police; Olavo Costa, from Marinha Portuguesa.*

  - **METEOR** – *Daoíz Zamora, from MION Technologies.*

  - **ODYSSEUS** – *Leoni Chondromatidou, from Quadible.*

- **Panel Discussion** – A roundtable conversation among all speakers on shared challenges, AI-driven solutions, and best practices in border management.

- **Interactive Q&A Session** – Open floor for participants to engage directly with speakers.

- **Closing Remarks**

The event promises valuable insights into how AI is transforming customs control, cross-border threat detection, and operational efficiency. It also offers a unique opportunity to discover the impact and scope of EU-funded projects driving innovation in border security.

2   REGISTRATION

Join us for the I-SEAMORE webinar *"AI Operations in Border Management"*, on **April 16th at 11:00 CET**, and explore the transformative role of AI in border management with insights from experts across customs, security, and technology sectors.
